Positive thinker

#7ThYearMagic

My experiences with comfort zone

From my autism

- In need of
structure

To everyone

Out of comfort zone you can't
predict what to expect

In comfort zone = predictable

In comfort zone = safe feeling

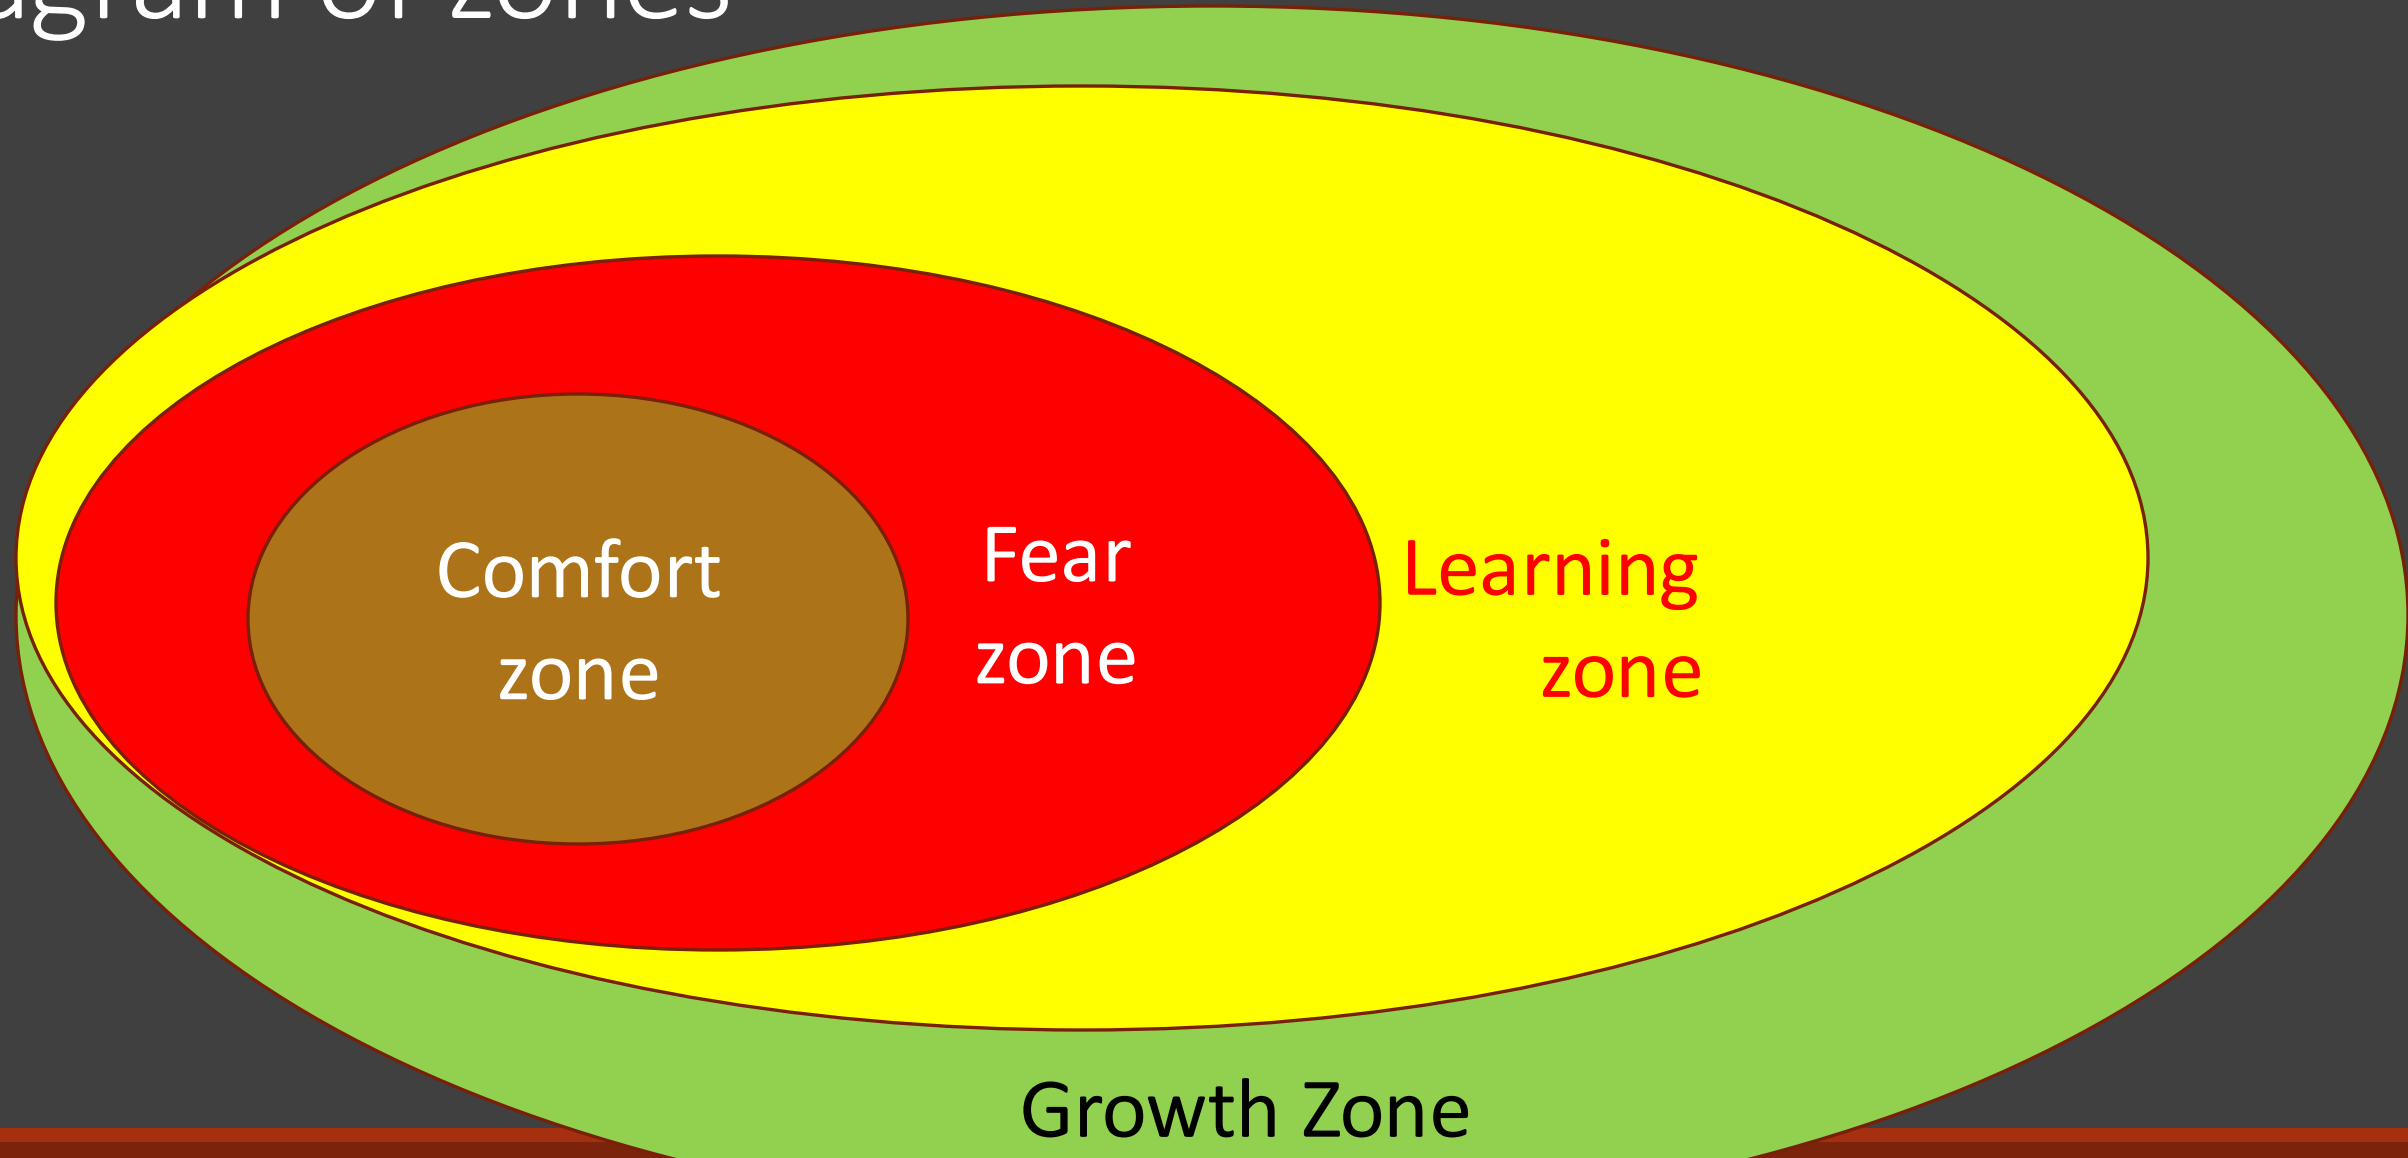

Out comfort zone = unpredictable

Out of comfort zone = most unique
experiences

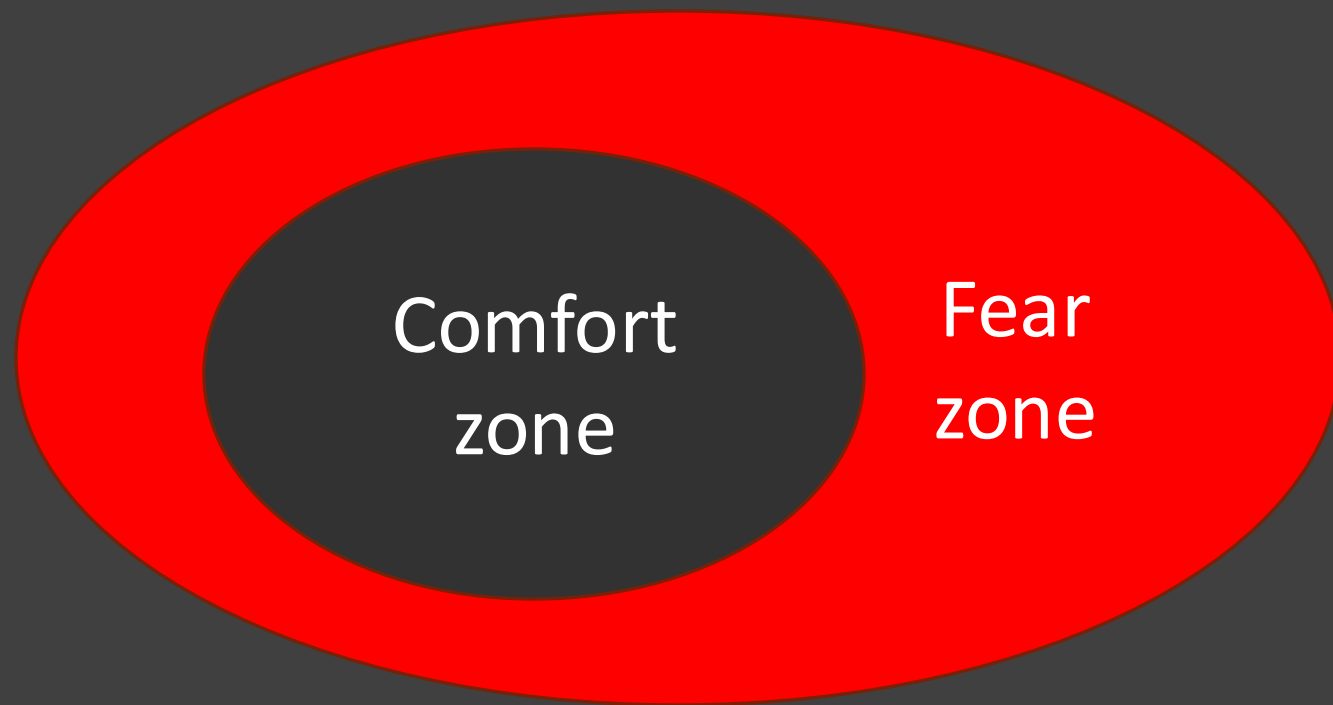

What is comfort zone
and what is out of
comfort zone?

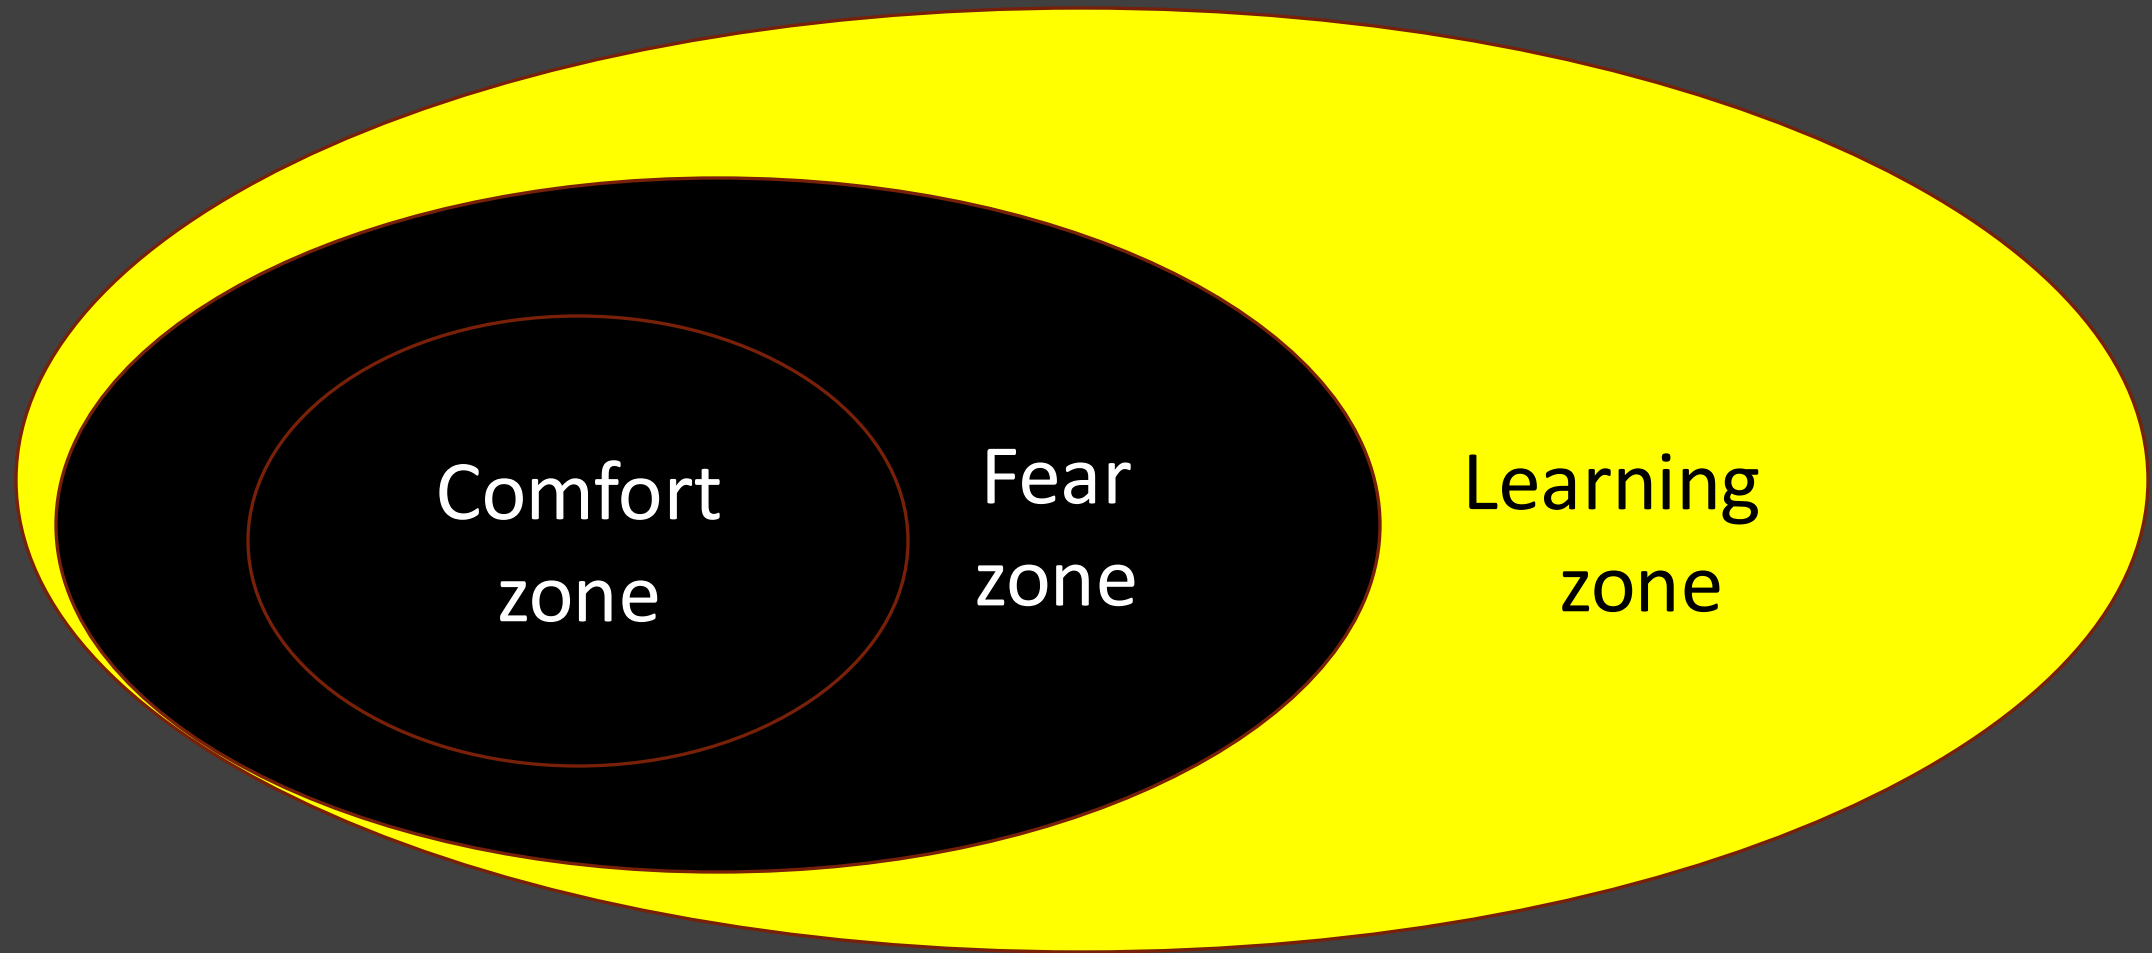

Diagram of zones

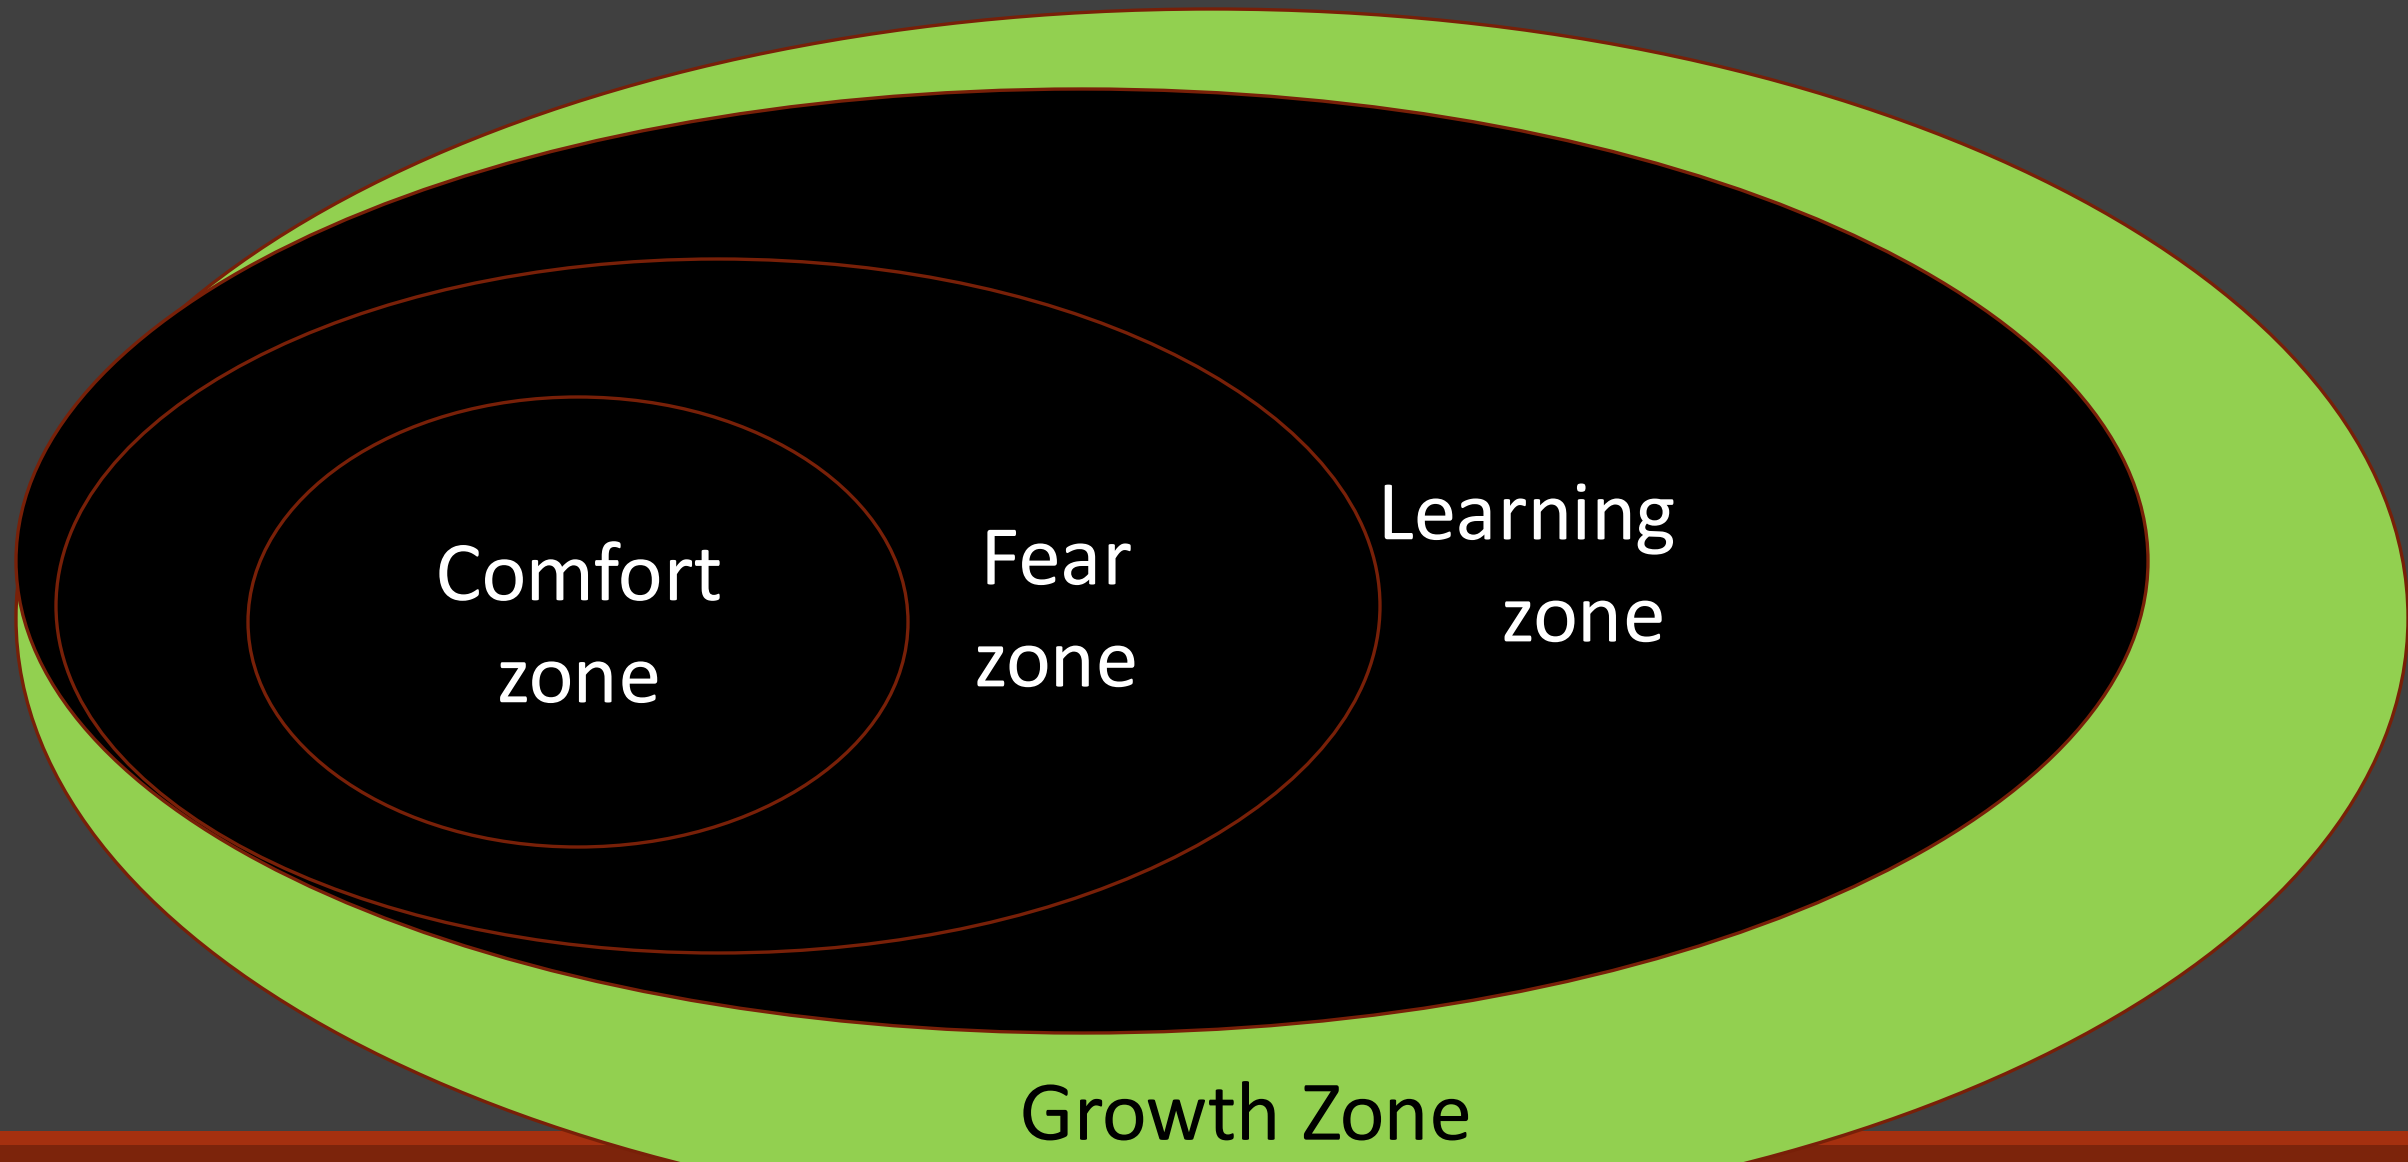

Comfort
zone

How to create a safe zone?

People supporting you

In learning zone:

- Move from left to right

Source control

Fallback

Be a consistent learner

Have knowledge

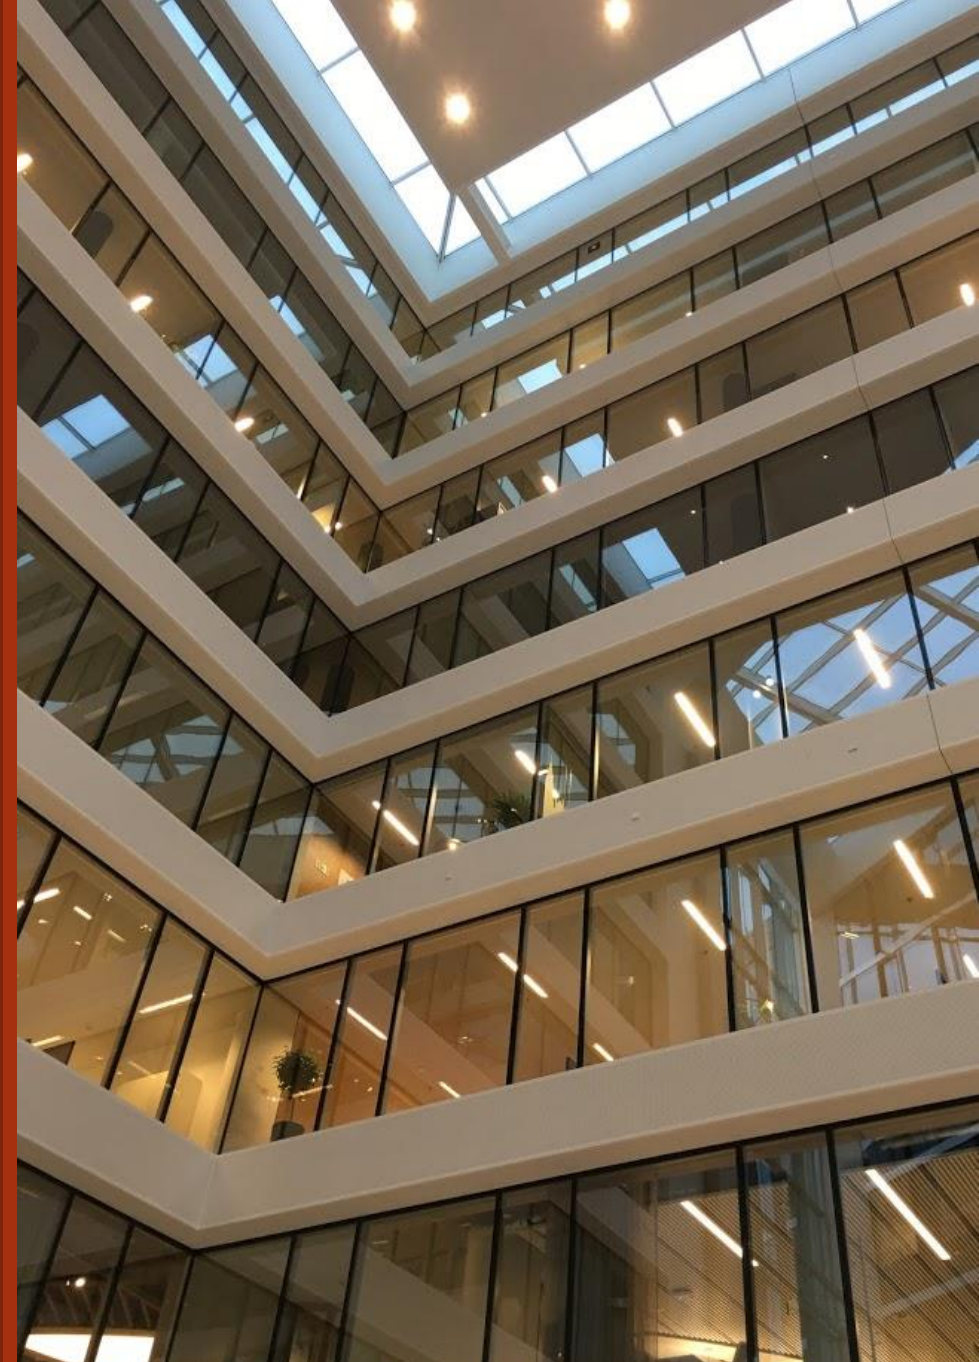

From conferences

But not only from conferences

Online video's

Making lot of hobby projects

How more you play = how more safe you feel

Do preparation

Prepare out of comfort zone scenario

Tell you closest inner circle

Have enough rest!

A good psychological stability / safety = key

How more preparation = more predictable

Beyond comfort zone = Magic

Comfort zone

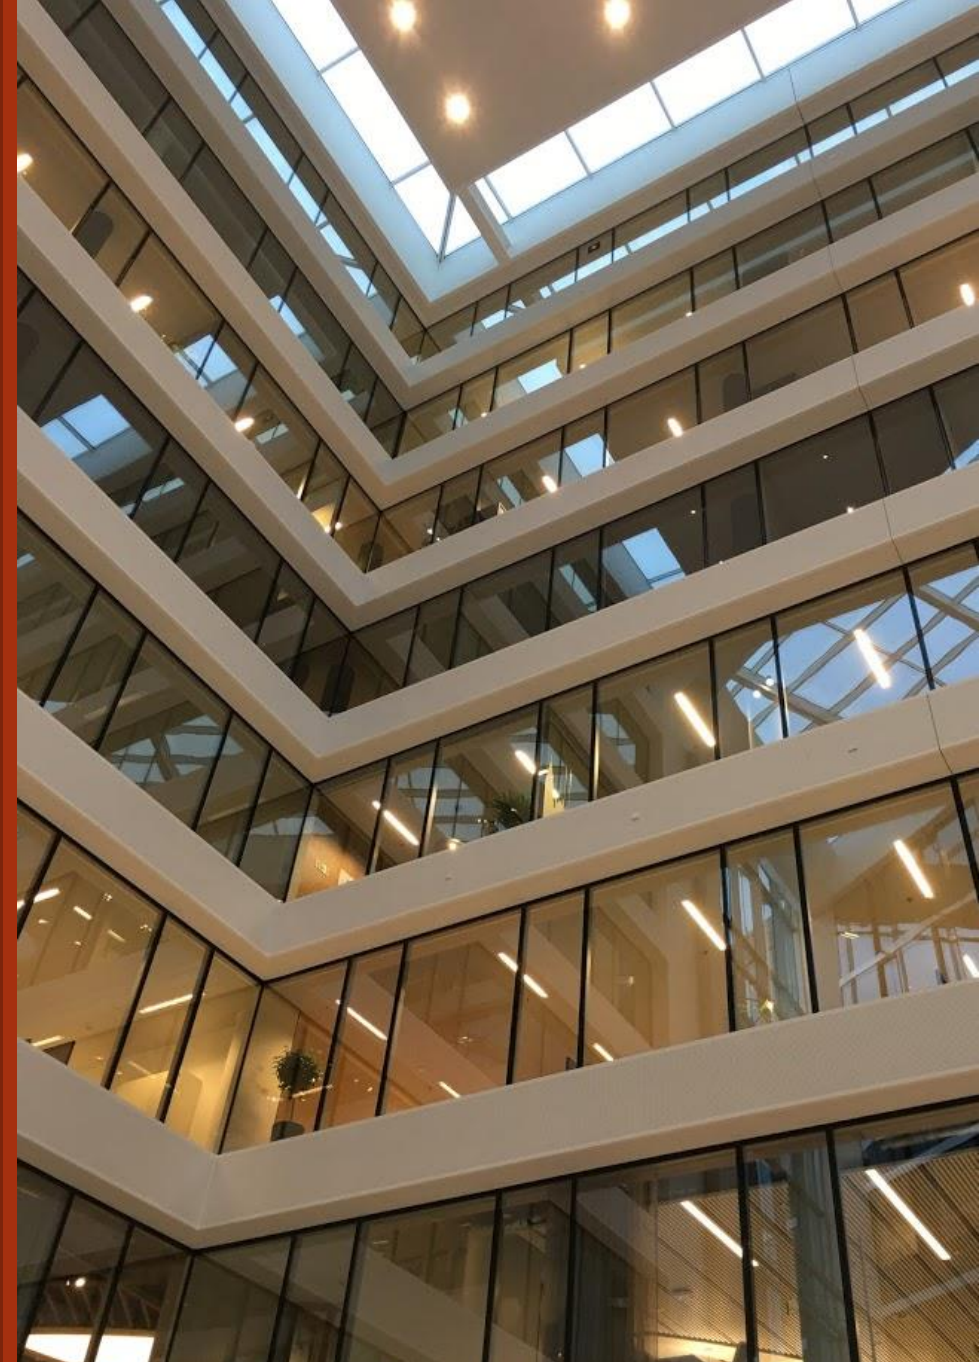

Where the
magic
Happens

Beyond comfort zone = a lot
of (business) opportunities

New people in your network

New technology are implemented

A modern interior scene featuring a large, spherical mirror that reflects a serene sunset over a body of water. The reflection shows a bright sun low on the horizon, with its light reflecting on the water's surface. In the foreground, two contemporary blue armchairs are positioned around a small, round, light-colored table. To the right, white curtains hang vertically. The overall atmosphere is calm and sophisticated.

Out of comfort in IT

Updates

Windows update → Backup device, Data in the cloud

IDE update → NuGet, a good source control system

NuGet update → A new branch for each update

A new app to your stack

1 subject / topic at a time = More comfortable

Open active board

Have members in your safe zone

A new methodology

Complete change or breaking change

Branching

Keep updating old version = always on

A/B testing

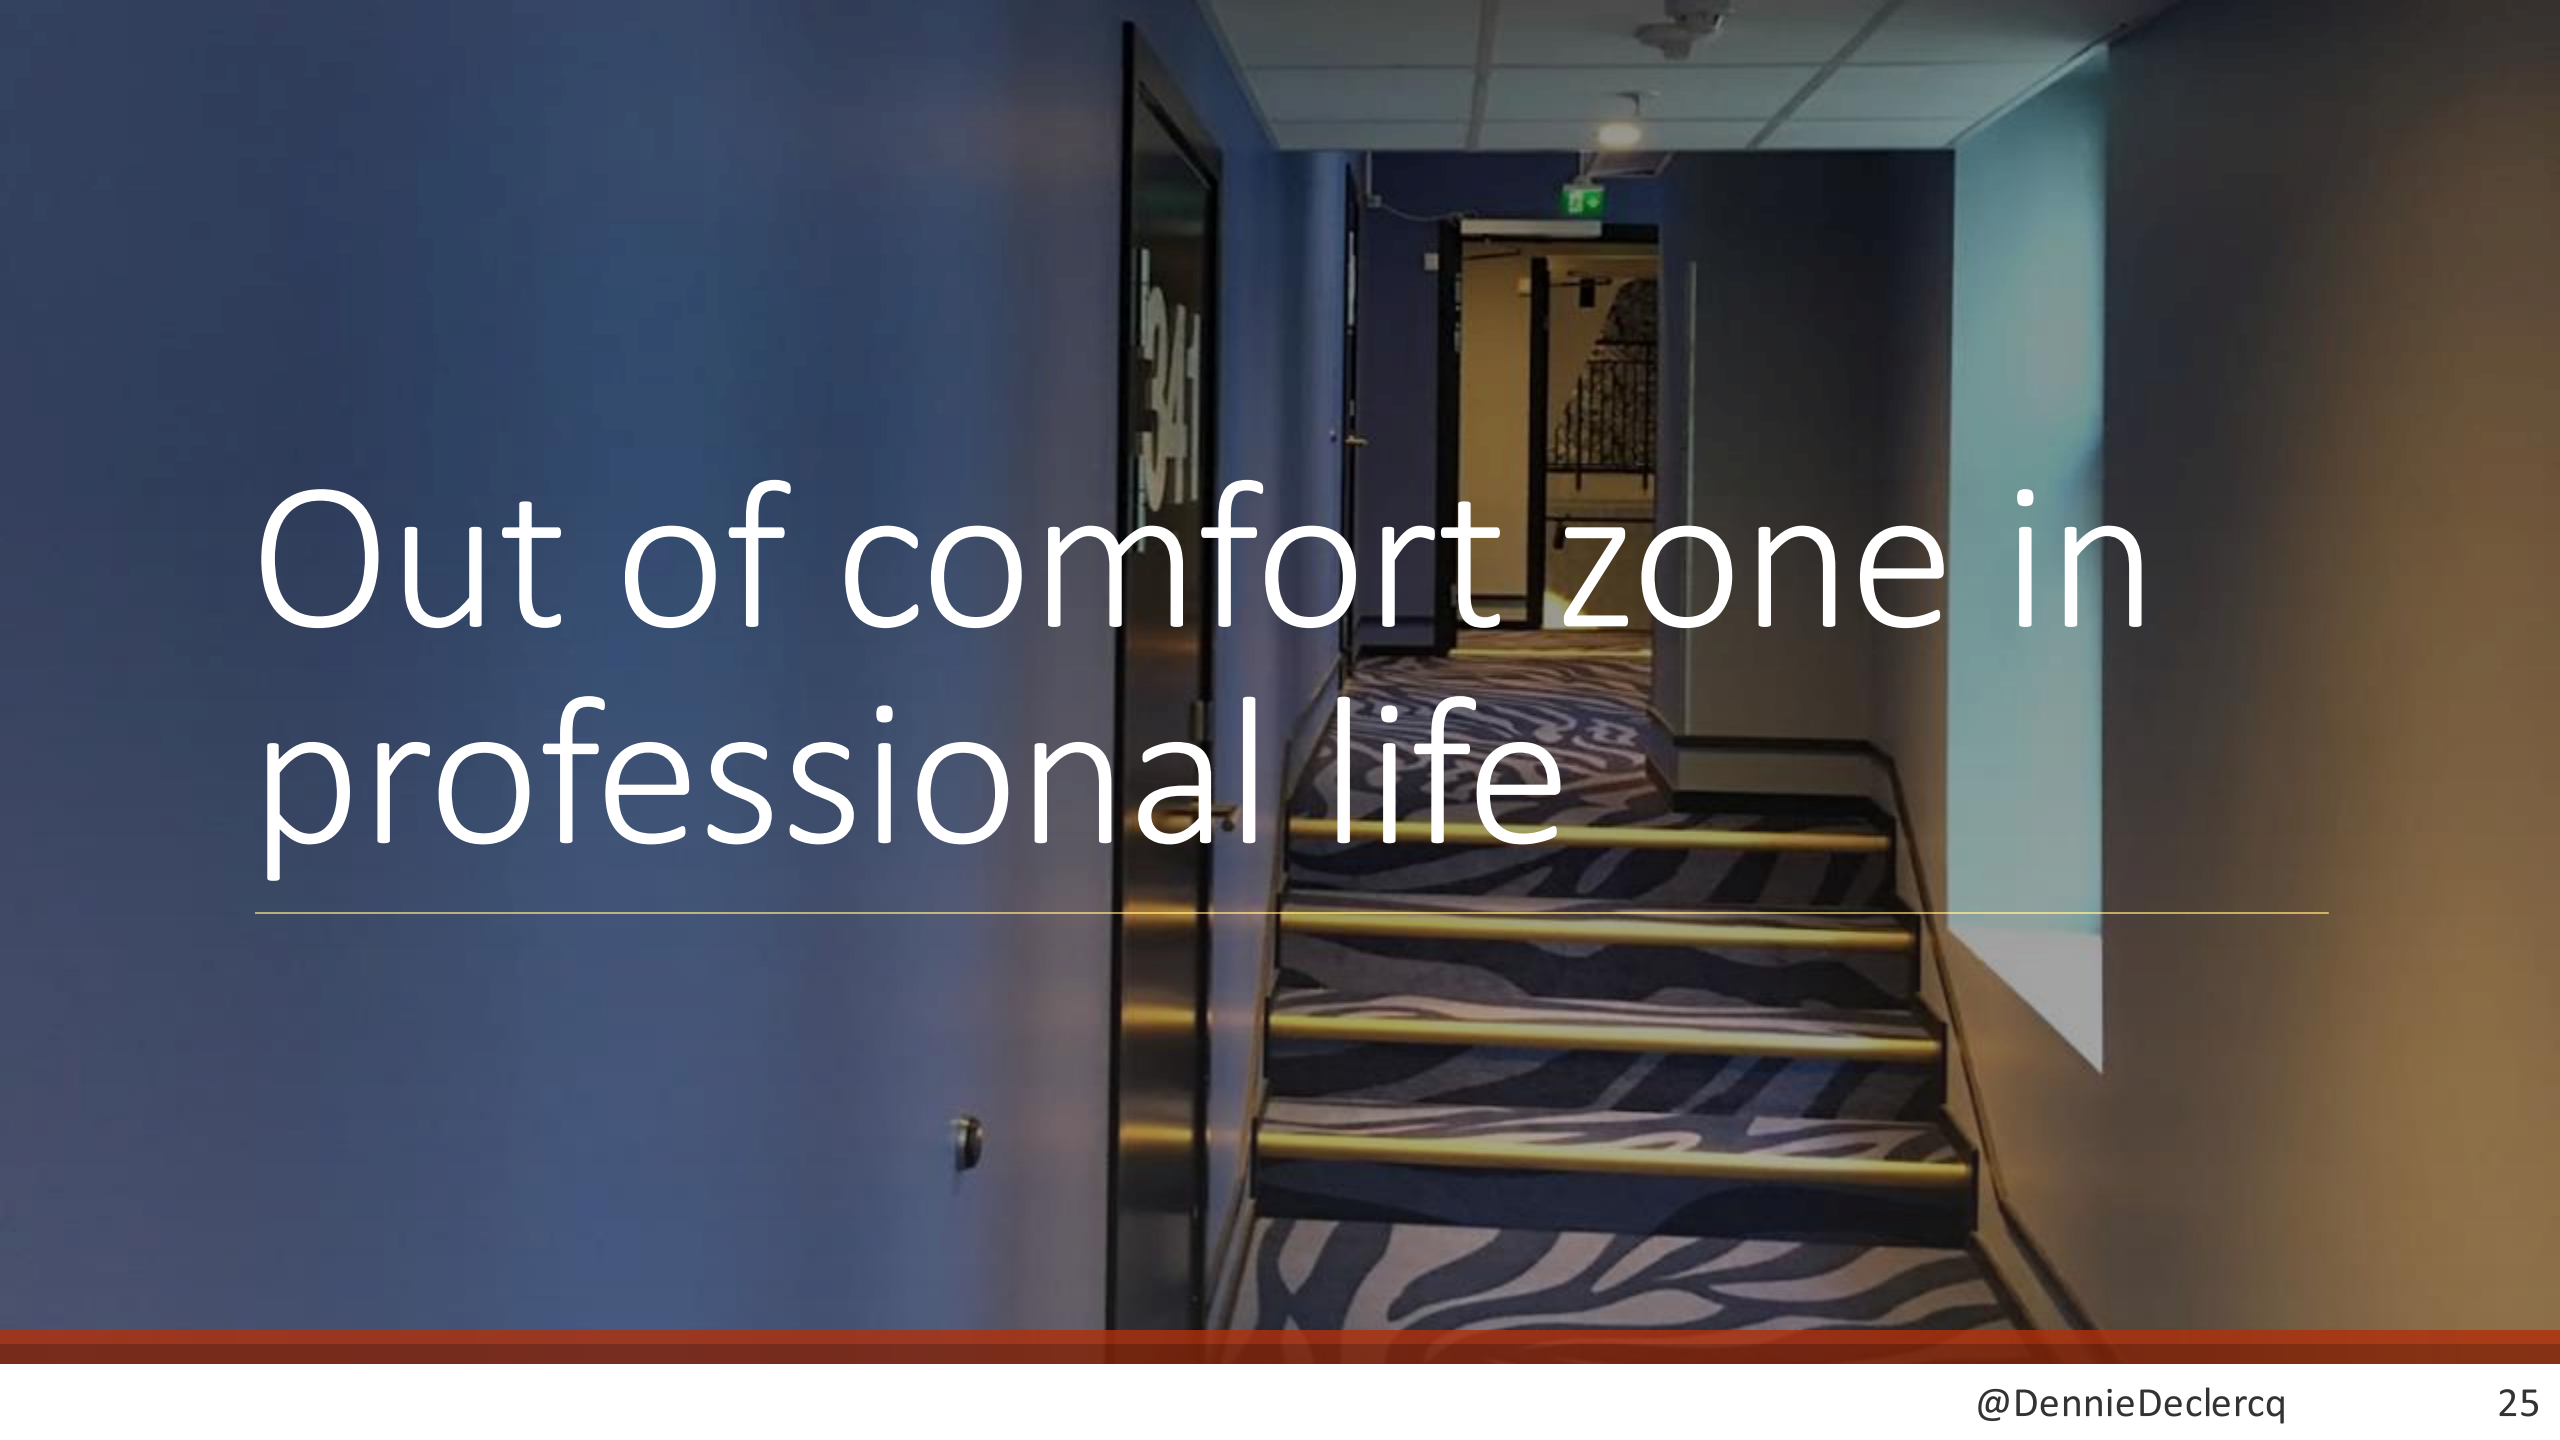

Cloud changes

Affects complete company or department

Start with 2 backends

Change URI in frontend

Important for safety zones

A photograph of a modern office hallway. The walls are a deep blue, and the floor is covered in a patterned carpet with shades of blue and grey. A staircase with a metal railing and a patterned carpet is visible in the foreground. The hallway leads to a bright area at the end, possibly an exit, marked by a green sign. The text "Out of comfort zone in professional life" is overlaid in white, with a thin yellow line underneath it.

Out of comfort zone in professional life

Coworkers and comfort zone

Start with lunches with coworkers

Make a plan

Use a safe zone = invite favorite coworker to join (during lunch or after)

Meetings

Introduce everyone

Start small

Talk about big interest = feel more safe

Out of comfort zone in personal life

Why do x
always have
better
opportunities

They feel safe to go
outside comfort
zone

They start small

Party achievements

Your next
holiday!

What's your next
holiday?

Implement a safe
zone

Look in online maps

Keep a copy of
booking details

Work step by step

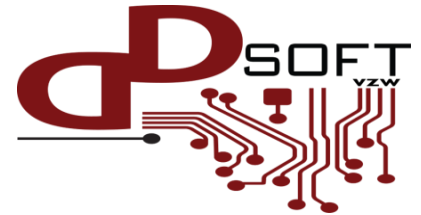

Wrap up

Thanks !
