Outro

The Quest of 2024

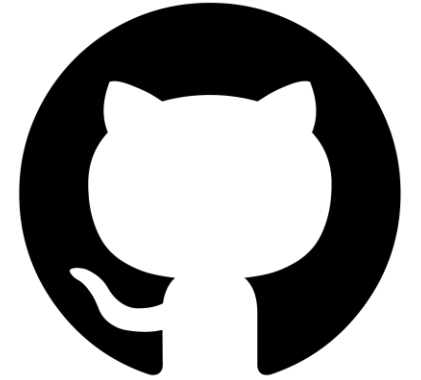

1 & 1 = 3 (Binary 011 == 3)

- AI assisted journaling in Markdown worked to manage my health follow up.
- I loved to do this. It gave me joy next to the problems I experienced.
- I still have a bad handwriting.
- I always had issues with keeping up my business notes.
- I always had issues with personal note taking (leads to forgetting a lot).
- I always hated to use different tool stack (the right tool for the right job is not easy) Blame Autism!
- So, I started journalling everything on the AI assisted markdown way!

A private Github setup

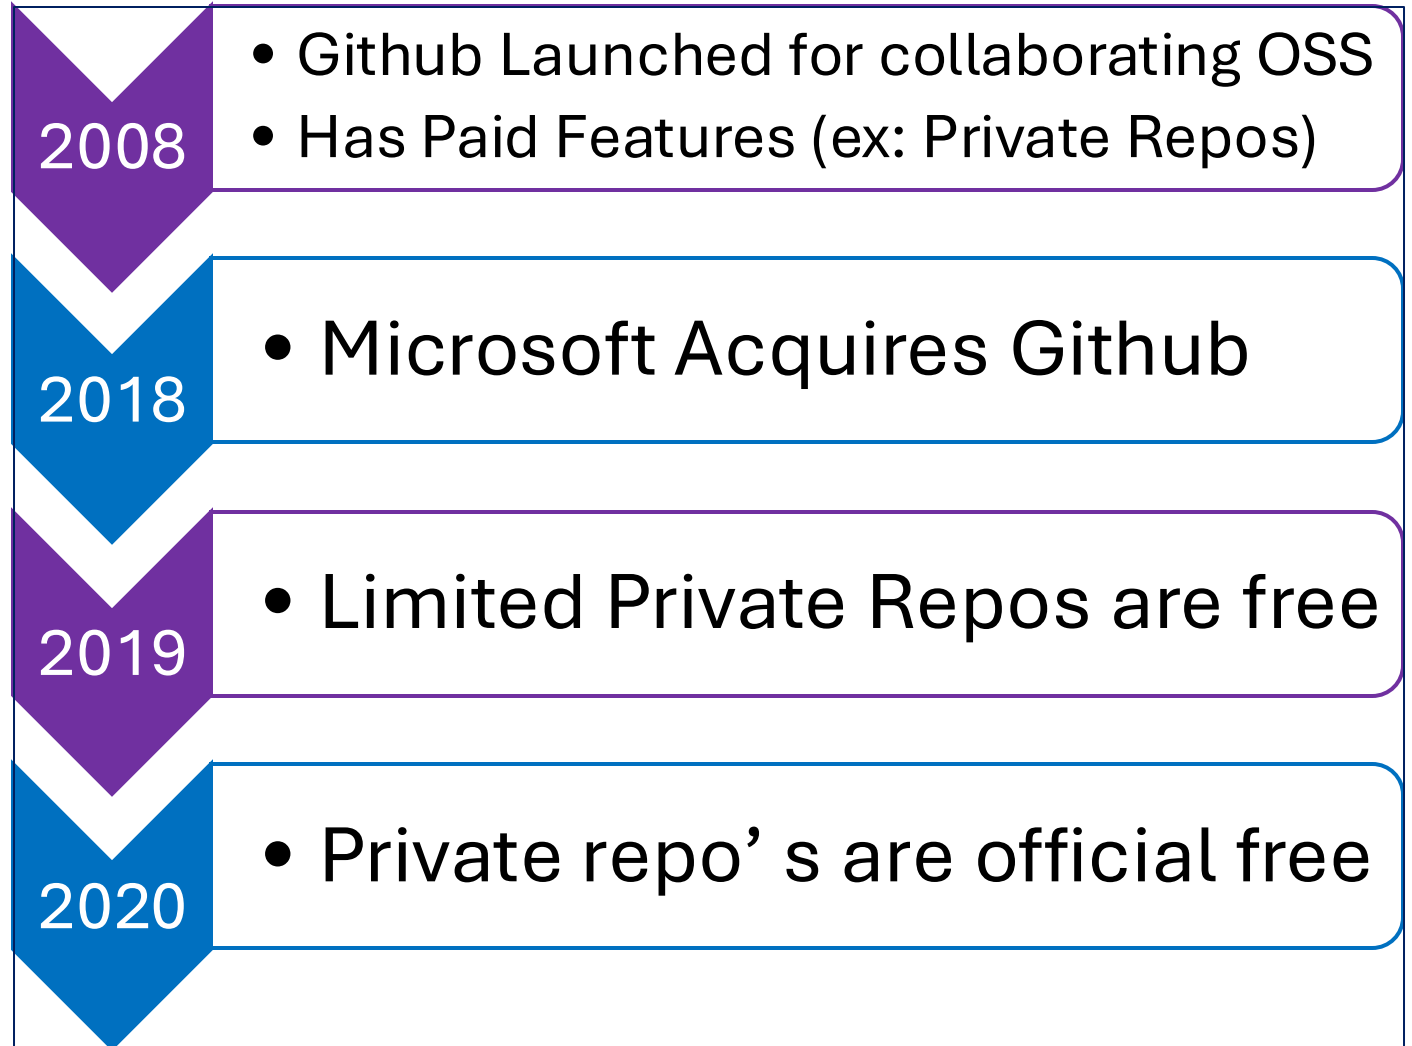

Where do developers live?

On Github

Making Lists

This is a simple list:

- Item 1
- Item 2

Multi level list (DDSoft):

- * Dennie Declercq
 - * President
 - * Trainer
- * Marlies
 - * Administration

This is a simple list:

- Item 1
- Item 2

Multi level list (DDSoft):

- Dennie Declercq
 - President
 - Trainer
- Marlies
 - Administration

Making a table

```
| Name | Function | Needs |  
|-----|-----|-----|  
| Dennie | President | Experiences |  
| Rob | Developer | Enough rest |  
|-----|-----|-----|
```

Name	Function	Needs
Dennie	President	Experiences
Rob	Developer	Enough rest

Displaying code

```
```csharp
using System;

public class Program
{
 public static void Main()
 {
 Console.WriteLine("Hello, World!");
 }
}
```
```

```
using System;

public class Program
{
    public static void Main()
    {
        Console.WriteLine("Hello, World!");
    }
}
```

Ghostwriting - example

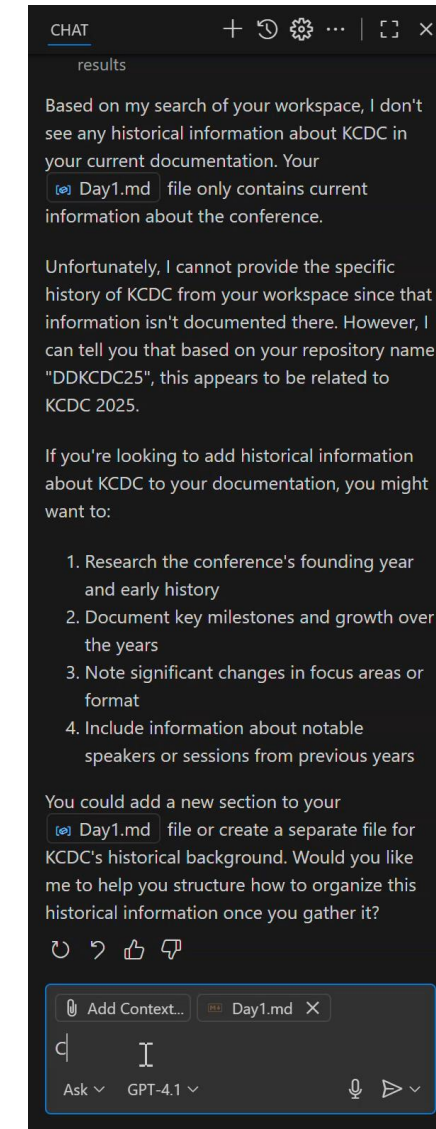

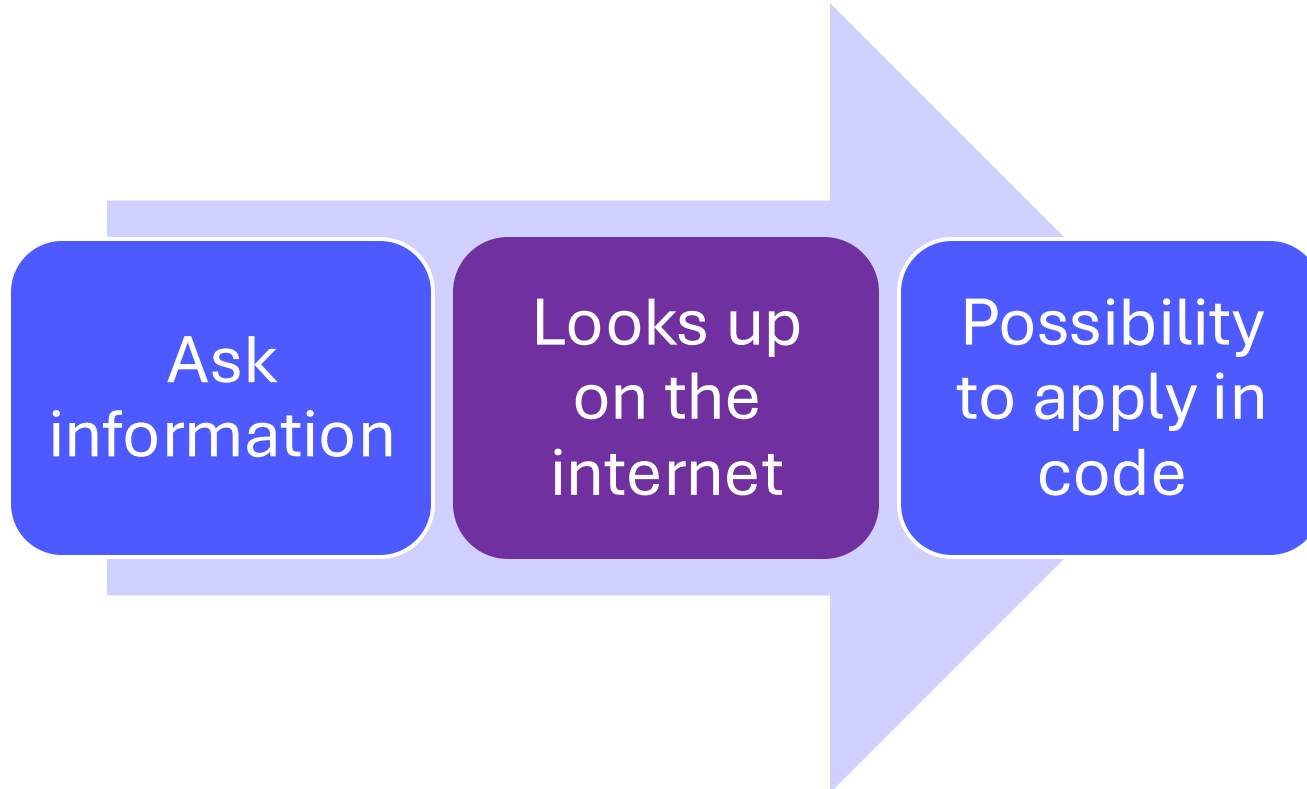

Day 1

Introduction

KCDC is a conference that brings together developers, designers, and tech enthusiasts to share knowledge and network. This year, the focus is on the latest trends in software development, including AI, cloud computing, and web technologies.

It is located in Kansas City, Missouri, and features a variety of sessions, workshops, and keynote speeches from industry leaders.
